

PRODUCTION MANAGER

PRODUCTION MANAGER ROLE

Build Modular/Evergreen is a part of the well-established Property Partners Group, aiming to become a leader in solving New Zealand's housing shortage by using world-leading technology to enable off-site manufacturing of affordable and environmentally friendly apartment buildings.

We are revolutionising the way buildings are constructed in NZ. We are having a heap of fun building a fit for purpose factory, creating a close-knit team and establishing lean processes and procedures in the office and factory.

We are searching for a Production Manager who enjoys working in a dynamic and fast-moving environment. As a Production Manager, you will provide leadership to the production team to deliver on the production schedule. As an integral member of the leadership team, this role will collaborate and get involved in other functions, such as Health and Safety, Quality and Supply Chain, to ensure that KPIs are achieved, and customer specifications are met on time.

WHAT IS IN IT FOR YOU?

- Wiri Based - beat the Auckland traffic!
- Be part of the start-up team for a well-established parent company
- Great team culture with a strong Health and Safety commitment
- Help establish effective processes and procedures

WHAT YOUR DAY TO DAY WILL LOOK LIKE:

- Lead, coach and motivate the production team to ensure daily targets are met at the expected standards and according to plans
- Work closely with Carpentry and Electrical team leaders to ensure the flow of production through the factory is optimised to programme
- Ensure the build process is meeting milestones and project timelines by effectively delegating team, resources, machinery and materials
- Actively promotes the use of root cause analysis when dealing with challenges, assists with the establishment and implementation of Lean manufacturing principles
- Liaise with the Auckland Council Site Inspectors to provide all required documentation and ensure every inspection is passed
- Ensuring compliance with relevant codes, legislation, and procedures
- Ensuring all H&S protocols are followed closely, including the appropriate use of the safety equipment and Personal Protective Equipment

ABOUT YOU?

- Tertiary qualifications in Operations Management, Manufacturing, Construction or equivalent
- A minimum of 10 years of experience in a similar role
- Sound understanding of Lean Manufacturing
- An ability to think practically with problem-solving capability and a "can-do" attitude
- Be friendly and approachable with the ability, flexibility and willingness to work as part of a team
- Ability to communicate and collaborate effectively with people from all levels of the business
- Excellent time management, planning and organisational skills with excellent attention to detail
- Ability to coach, mentor and motivate teams to achieve organisational and individual career goals.
